

2nd.MD
easy access to leading doctors

Feeling Good

Stay on Track with your Health

It's never too late to schedule your annual preventive care visit. Understanding your current health status can help you set or keep track of your personal wellness goals. If you have questions about health and your treatment options, 2nd.MD can help.

2nd.MD connects you with top doctors from the comfort of your own home - at no cost to you.

A specialized 2nd.MD nurse will work hand-in-hand with you to understand your medical issues and schedule your video or phone consultation with an expert specialist.

Don't wait, talk to a 2nd.MD nurse today!

Member with family history of colon cancer:

"2nd.MD specialist Dr. Raymond is very knowledgeable, and she took time to explain everything in terms that I understood. I felt completely comfortable asking questions about the suggestions she made, and I really appreciated her honesty. The service was easy to use and a huge time-saver. I am very happy with my experience, and would definitely use 2nd.MD again."
